"P. Scott Rubin Speaks at May Meeting of the New Jersey Numismatic Society"

*E-Sylum*

Jeff Burke

May 17, 2016

*This article is dedicated to the memory of Dave Ginsburg, distinguished numismatic scholar and researcher.*

Scott Rubin was a special guest speaker for the May meeting of the New Jersey Numismatic Society at the Madison (NJ) Public Library on May 16, 2016. Mr. Rubin, a lifelong New Jersey resident, started collecting coins in 1955. He has written articles for the ANS, ANA, NBS and *Coin World*. Scott has conducted research for many numismatic auction houses such as Stack's, Bowers & Merena, Superior and Heritage. Rubin is ~~is~~ retired from the State of New Jersey where he worked for nearly forty years as a computer analyst (from bio supplied by the speaker). At the present time, Scott collects New Jersey Colonial currency.

Ray Williams, a Colonial coin and currency specialist, introduced the speaker. Rubin's topic was "Numismatic Research from Auction Catalogues, stories and insight on how to use them." The evening started out well for Rubin when he won the 50/50 (beginner's luck)! In 1955, Rubin noticed that coin dealers had old auction catalogues lying around. He started getting catalogues from Kagin's and Stack's. Although Scott found very few specialized coin books in the 1960s, a few were available on half cents and large cents so he started collecting those coins. Scott began to do research for Walter Breen and Roger Cohen from information he gleaned from auction catalogues.

Scott talked about how to use an auction catalogue and the ways in which dealers such as B. Max Mehl marketed their products. He taught himself how to discern which dealers could be trusted with their photographs. Images of coins which appeared in catalogues weren't necessarily the coins that were in that sale! He also investigated how to decipher catalogue pedigrees and identify frequent errors found in numismatic catalogues published prior to and including the 1960s. Fortunately, dedicated cataloguers at companies like Heritage and Stack's Bowers are doing extensive research to ascertain correct pedigrees. Scott cited the phenomenal job done by John Kreljevich to do pedigree research for the Pogue Auction catalogues.

Rubin owns over 10,000 hard copies of U.S. numismatic auction catalogues and numerous foreign auction catalogues as well. He continues to keep computer records on 212 federal issue U.S. coins and has gone through each of the 10,000 catalogues at least once. Three numismatic dealers of note that Scott dealt with were Frank Katen, Aaron Feldman and James Brown. Scott shared some of his favorite memories and stories about these bibliophiles. Rubin noted that we are now living in the golden age of numismatic research with the internet and other tools available such as the Newman Portal to help get more numismatic material online!

After NJNS President Dave Bailey thanked Scott for his exemplary and humorous talk, the audience had numerous questions for Rubin during the Q & A session. Society members were

grateful to Rubin from making the long trek from Lawrenceville, NJ, to spend the evening with us. It was a night to remember.

Hi Jeff,

My topic for my NJNS presentation will be about Numismatic Research from Auction Catalogues, stories and insight on how to use them. I hope this will be a good topic for the group. If not let me know.

As a bio I have been collecting coins since 1955 and have lived in New Jersey all my life. I have written articles for the ANA, ANS, NBS, Coin World and have also done research for many of the Numismatic auction houses such as Stack's, Bowers & Merena, Superior and Heritage. I am retired from retired from the State of New Jersey where I was a computer analyst for almost forty years.

If you need anything else let me know.

Hi, Scott,

Thanks for getting back to me so quickly. We were shocked by Dave's sudden death. He was a gifted numismatic researcher, writer and scholar who will be missed by many people.

I appreciate receiving the confirmation of your presentation at the NJNS on May 16. I look forward to hearing about your topic and receiving your bio!

Kind regards,

Hi Jeff,

I am confirming the May 16 date for your talk. I was so sorry to hear about Dave Ginsburg's passing, we never met but all I have read about him he was a dedicated numismatist. I will get back to you by early next week with my topic (you can let me know at that time if you think it will play well with the group) and a bio.

Hi, Scott,

Ray Williams gave me your e-mail address so that I could contact you about your plans to speak at our New Jersey Numismatic Society meeting on the night of May 16 at the Madison Public Library. You may recall having an e-mail exchange with the late Dave Ginsburg about this upcoming talk. I know that Dave was very excited about having you as our featured speaker in May!

I have read a number of your published works in *The Numismatist*, *E-Sylum*, and other numismatic publications. I am writing to confirm the time and date with you and to see if you need anything else to help you with your presentation. Society members usually start gathering together shortly after 7 P.M. so you will have plenty of time to set up before we start our meeting at 7:30 P.M. Do you have a title for your talk? Also, I would appreciate getting a brief bio from you to help with our formal introduction. We are looking forward to having you as our special speaker in May!

Walter Chinoy brought an obituary of Ginsburg from the *Star Ledger* dated February 4, 2016, to pass around the room.

The Society discussed the upcoming Whitman Show and the EAC Annual Convention to see who would be attending these events.
